2006

UNIVERSITY OF CENTRAL FLORIDA - CODING BOOTCAMP - 2016

EXPERIENCE

BUSINESS SYSTEMS ANALYST, FRONTLINE INSURANCE - LAKE MARY, FL - MARCH
2018 - 2019

I assist in developing technical solutions to business problems by defining, analyzing and documenting requirements, completing thorough system analysis, documenting system processes and assessing relevant business cases within an agile scrum environment.

TEACHING ASSISTANT - TRILOGY EDUCATION SERVICES - ORLANDO, FL - April 2017 -2018

I supported an intensive coding bootcamp based out of UCF Department of Continuing Education involving in-class teaching through an extensive curriculum using Node.js, Express.js, JavaScript, jQuery, AJAX, RESTful APIs, React, MySQL, MongoDB, PHP and Laravel.

REAL ESTATE AGENT - URBANISTA BROKERS - ORLANDO, FL - 2011 - 2017

I worked as a full service real estate agent focusing on luxury rental in downtown Orlando and the surrounding areas. I generate traffic for the buildings, conduct tours, write leases and assist with all facets of the move in process. I work closely with current leasing agents and combine efforts with them to close rental contracts on a daily basis.

CLIENT SERVICES - JUMP TV INC/NEULION - SANFORD, FL – 2008 -2010

I served as the front line for client relations and customer service. I dealt with any and all questions in regards to running the back-end of over 200 sports web sites. Daily activities included reading and writing html, creating ads, posting articles and all types of site information and creating email campaigns etc.
